Lifting platforms Scissors

Lifting platform VAS 791 017

Electro-hydraulic double scissor action lifting platform for lifting all passenger vehicles.

- Electro-hydraulic drive with controllable pressure relief device (bleeding)
- Double command/slave cylinder hydraulic system
- Galvanised and powder-coated
- Hydraulic assembly integrated into the control panel
- Emergency lowering means in the event of power failure
- Switching off of the lowering movement on contact with an obstacle
- Contactlessly operating inductive proximity switches
- Control voltage 24 V
- 4 rubber pads 40 mm
- Specify over-floor or underfloor installation when ordering

Technical data

- Load capacity: 3.5 t
- Lift: 1,920 mm
- Overall length with short drive-on ramps: 2,100 mm
- Overall width: 2,000 mm
- Drive-on height: 105 mm
- Platform length: 1,470–2,120 mm
- Platform width: 600 mm
- Motor rating: 3.0 kW
- Electrical connection (3 phase): 230/400 V, 50 Hz
- Lifting time: 35 s
- Lowering time: 40 s

Recommended accessories

Drive-on ramps
VAS 791 017/1; **ASE 791 018 80 A00**

Warranty

24 months

Manufacturer
